1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I am a customer of Dominion energy who has a rooftop solar installation. I will be directly affected by the proposed tariff.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

I would like to play a meaningful role in a sustainable planet. That's was the main driver of my putting solar power on my roof. Not because it was going to save me money, not because it was going to extend the life of my roof, not because I'd be able to power my house should the grid fail, but because it was the right thing to do in contributing to a sustainable planet.

With that in mind I keep an eye on my energy consumption. I recently purchased an electric vehicle in order to help reduce my carbon footprint. As a result my solar installation will effectively provide for all the energy I need for my transportation needs. None of it was cheap. But don't get me wrong I didn't do it with the thought in mind that the state could use my efforts as a reason to squeeze more revenue out of me.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

yes
